SESSION-8

Question1: Create a Flipkart-style product card in HTML and CSS, then use a meta viewport tag to ensure it scales correctly on mobile devices.

Ans:

```
<!DOCTYPE html>
<html lang="en">
<head>
  <meta charset="UTF-8">

  <!-- Ensures proper scaling on mobile devices -->
  <meta name="viewport" content="width=device-width, initial-scale=1.0">

  <title>Flipkart Product Card</title>

  <style>
    body {
      font-family: Arial, sans-serif;
      background-color: #f1f3f6;
      margin: 0;
      padding: 20px;
    }

    .product-card {
      background-color: white;
      width: 280px;
      max-width: 100%;
      margin: 30px auto;
```

```
    padding: 20px;
    text-align: center;
    border-radius: 8px;
    box-shadow: 0 2px 8px #ccc;
    box-sizing: border-box;
}

.product-card img {
    width: 100%;
    max-width: 200px;
    height: 180px;
    object-fit: contain;
}

.product-card h2 {
    font-size: 20px;
    color: #212121;
}

.price {
    color: #388e3c;
    font-size: 18px;
    font-weight: bold;
}

.button {
    background-color: #2874f0;
    color: white;
```

```
        border: none;
        padding: 12px 20px;
        border-radius: 4px;
        cursor: pointer;
      }

      .button:hover {
        background-color: #1557b0;
      }
    </style>
</head>
<body>

  <div class="product-card">
    <img src="https://image.made-in-china.com/2f0j00bczCjreMkPkn/6-7-Inch-Screen-Android-Smartphone-Dual-SIM-4000mAh-4G-Smart-Mobile-Phone.webp"
         alt="Smartphone">

     <h2>Smartphone</h2>
    <p>Latest smartphone with amazing features.</p>
    <p class="price">₹12,999</p>

    <button class="button">Buy Now</button>
  </div>

</body>
</html>
```

Question2: Add media queries to your product card so that when the screen width is 600px or less, the card layout switches from horizontal (image and details side by side) to vertical (image on top, details below).

Ans:

```
<!DOCTYPE html>
<html lang="en">
<head>
  <meta charset="UTF-8">
  <meta name="viewport" content="width=device-width, initial-scale=1.0">
  <title>Responsive Product Card</title>
```

```
<style>
  body {
    font-family: Arial, sans-serif;
    background-color: #f1f3f6;
    margin: 0;
    padding: 20px;
  }

  .product-card {
    display: flex;
    flex-direction: row;
    align-items: center;
    gap: 20px;
    max-width: 600px;
    margin: 30px auto;
    padding: 20px;
    background-color: white;
    border-radius: 8px;
    box-shadow: 0 2px 8px #ccc;
  }

  .product-card img {
    width: 200px;
    height: 200px;
    object-fit: contain;
  }
```

```
.product-details {
  flex: 1;
}

.product-details h2 {
  color: #212121;
}

.price {
  color: #388e3c;
  font-size: 20px;
  font-weight: bold;
}

.button {
  background-color: #2874f0;
  color: white;
  border: none;
  padding: 12px 20px;
  border-radius: 4px;
  cursor: pointer;
}

/* On screens 600px or less, stack image and details vertically */
@media (max-width: 600px) {
  .product-card {
    flex-direction: column;
    text-align: center;
```

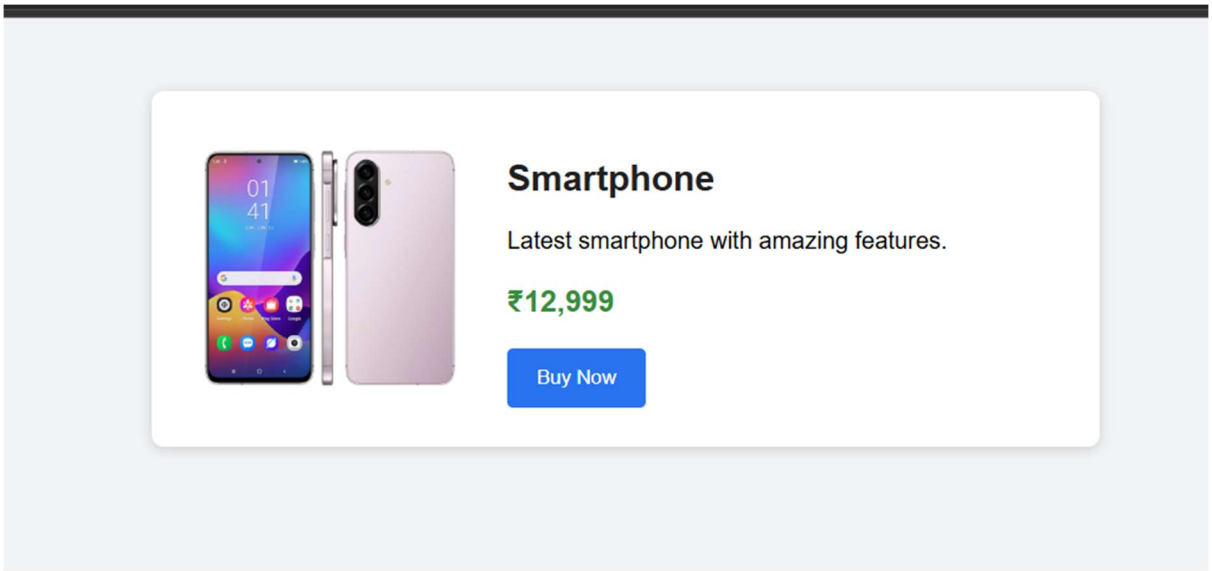

```
        }

        .product-card img {
            max-width: 100%;
        }
    }
  </style>
</head>
<body>

  <div class="product-card">
    <img src="https://image.made-in-china.com/2f0j00bczCjreMkPkn/6-7-Inch-Screen-Android-Smartphone-Dual-SIM-4000mAh-4G-Smart-Mobile-Phone.webp"
         alt="Smartphone">

    <div class="product-details">
      <h2>Smartphone</h2>
      <p>Latest smartphone with amazing features.</p>
      <p class="price">₹12,999</p>
      <button class="button">Buy Now</button>
    </div>
  </div>

</body>
</html>
```

Question3: Set up three breakpoints (600px, 900px, 1200px) for your product card and change the card's font size and padding at each breakpoint to improve readability on different devices.

Hint: Use @media only screen and (max-width: ...) in your CSS for each breakpoint.

Ans:

```
<!DOCTYPE html>
<html lang="en">
<head>
  <meta charset="UTF-8">
  <meta name="viewport" content="width=device-width, initial-scale=1.0">
  <title>Responsive Product Card</title>

  <style>
    body {
      font-family: Arial, sans-serif;
      background-color: #f1f3f6;
```

```
    margin: 0;
    padding: 20px;
}

.product-card {
    display: flex;
    align-items: center;
    gap: 20px;
    max-width: 600px;
    margin: 30px auto;
    padding: 25px;
    background-color: white;
    border-radius: 8px;
    box-shadow: 0 2px 8px #ccc;
    font-size: 18px;
}

.product-card img {
    width: 200px;
    max-width: 100%;
    height: 200px;
    object-fit: contain;
}

.product-details {
    flex: 1;
}
```

```
.product-details h2 {
  font-size: 24px;
  color: #212121;
}

.price {
  color: green;
  font-weight: bold;
}

.button {
  background-color: #2874f0;
  color: white;
  border: none;
  padding: 12px 20px;
  border-radius: 4px;
  cursor: pointer;
}

/* Breakpoint 1: Mobile screens */
@media only screen and (max-width: 600px) {
  .product-card {
    flex-direction: column;
    text-align: center;
    font-size: 14px;
    padding: 12px;
  }
```

```
  .product-details h2 {
    font-size: 18px;
  }
}

/* Breakpoint 2: Tablet screens */
@media only screen and (min-width: 601px) and (max-width: 900px) {
  .product-card {
    font-size: 16px;
    padding: 18px;
  }

  .product-details h2 {
    font-size: 21px;
  }
}

/* Breakpoint 3: Small desktop screens */
@media only screen and (min-width: 901px) and (max-width: 1200px) {
  .product-card {
    font-size: 18px;
    padding: 25px;
  }

  .product-details h2 {
    font-size: 24px;
  }
}
```

```
  </style>
</head>
<body>

  <div class="product-card">
    <img src="https://image.made-in-china.com/2f0j00bczCjreMkPkn/6-7-Inch-Screen-Android-Smartphone-Dual-SIM-4000mAh-4G-Smart-Mobile-Phone.webp"
         alt="Smartphone">

    <div class="product-details">
      <h2>Smartphone</h2>
      <p>Latest smartphone with amazing features.</p>
      <p class="price">₹12,999</p>
      <button class="button">Buy Now</button>
    </div>
  </div>

</body>
</html>
```

Question4: Test your responsive product card by resizing your browser window and taking screenshots at mobile, tablet, and desktop widths; submit the screenshots along with a short note on what changes at each size.

Ans:

Responsive Product Card Testing

Objective: To test the responsive product card on mobile, tablet, and desktop screen sizes.

Screenshots:

1. **Mobile (375px):** The product card fits on the small screen. Text and buttons are readable, and padding is adjusted.
2. **Tablet (768px):** The product card has more space, with improved font size and padding for better readability.
3. **Desktop (1366px):** The product card appears larger and more spacious, with comfortable padding and readable text.

Conclusion: The responsive product card works properly on mobile, tablet, and desktop screens using CSS media queries.
