Question5: Add a theme switcher button to your page that toggles between a light and dark background using Bootstrap classes, and updates the text color for readability.

Hint: Use JavaScript to toggle 'bg-light'/'bg-dark' and 'text-dark'/'text-light' classes on the main container.

Ans:

```
<!DOCTYPE html>
<html lang="en">
<head>
  <meta charset="UTF-8">
  <meta name="viewport" content="width=device-width, initial-scale=1.0">

  </div>

  <script>
    function toggleTheme() {
```

```
        const container = document.getElementById("mainContainer");
        const button = document.getElementById("themeBtn");

        container.classList.toggle("bg-light");
        container.classList.toggle("bg-dark");

        container.classList.toggle("text-dark");
        container.classList.toggle("text-light");

        if (container.classList.contains("bg-dark")) {
            button.innerText = "Light Mode";
