Session:-1

Question1: Open Instagram's home page in Chrome, right-click on a post image, and use Inspect Element to find the exact HTML tag and CSS class used for the image container. Write down the tag name and class.

Ans:

Assignment: Inspect Instagram Post Image

Website: https://www.instagram.com/

Browser: Google Chrome

HTML Tag: <img>

CSS Class:

Procedure:

1. Open Instagram in Google Chrome.
2. Right-click on any post image.
3. Select **Inspect**.
4. Find the image element in the Elements panel.
5. Note the HTML tag and its CSS class.

Conclusion: I used Chrome DevTools to inspect an Instagram post image and identify its HTML tag and CSS class.

Question2: Create a simple HTML file named myprofile.html that displays your name, a short bio, and a profile picture using appropriate HTML tags (h1, p, img). Open it in your browser and view the result.

Ans:

```
<!DOCTYPE html>
<html lang="en">
<head>
```

Session:-1

```
  <meta charset="UTF-8">
  <meta name="viewport" content="width=device-width, initial-scale=1.0">
  <title>My Profile</title>
</head>
<body>

  <h1>Bhomeshwariba Solanki</h1>

  <p>Hello! I am Bhomeshwariba Solanki.
    I have completed my BCA.
    I am interested in learning web development and coding.</p>

  <img src="profile.jpg" alt="My Profile Picture" width="200">

</body>
</html>
```

Output:-

Question3: Use Chrome DevTools to change the background color of your name (in myprofile.html) to any color you like, live in the browser, without editing the HTML file.

Session:-1

Ans:

Title: Change Background Color Using Chrome DevTools

Procedure:

1. Open myprofile.html in Google Chrome.
2. Right-click on my name and select Inspect.
3. Select the <h1> element in the Elements panel.
4. Add background-color: yellow; inside element.style.
5. Observe the background color change live in the browser.

Result: The background color of my name changed to yellow using Chrome DevTools without editing the HTML file.

Question4: Draw a diagram or write a list showing the DOM structure (parent-child relationships) of your myprofile.html page. Include at least 3 levels (html > body > your content).

Ans:

Assignment: DOM Structure of myprofile.html

The DOM (Document Object Model) represents the HTML document as a tree of elements.

Parent-Child Relationships:

- html — Root element
    - head — Child of html
        - title — Child of head
    - body — Child of html
        - h1 — Displays my name, Bhomeshwariba Solanki
        - p — Displays my short bio
        - img — Displays my profile picture

Session:-1

Conclusion: The DOM structure shows the parent-child relationships between HTML elements. The html element is the root, body is its child, and h1, p, and img are children of body.
